## INTRODUCTORY

**T**HE Copyrighted Designs shown in this book represent the latest and most artistic effects in Ornamental Metal Ceilings and Sidewalls suitable for all classes of buildings. These new designs can be obtained only in "**Boston Ceilings**" which are perfect in construction and are made of a heavier gauge metal than the standard and will therefore cost far less to apply. "**Boston Ceilings**" are the first and only metal ceilings manufactured in New England.

## HOW TO ORDER

State character of work—whether Store, Hall, Theatre, Church, etc.

Make diagram of room and show every dimension, giving depth of cornice wanted so our designer can make correct working drawing.

Give Figure Numbers of field plates, borders, cornices, etc., as desired unless same are to be left to our judgment.

Mitred corners for cornices will not be shipped unless specially ordered and are not included in lump sum quotations unless so specified.

All quotations are **F. O. B. Boston** unless otherwise specified.

Working drawings are furnished with all orders with which any carpenter or metal worker can erect the material, or we can furnish mechanics at regular rates and expenses.

Where we have no competent agents we are prepared to quote on work installed complete and make a specialty of high class Church and Theatre work, also decorating.

## TERMS

For Material only: Thirty days net cash, or two per cent discount if paid within ten days from date of invoice.

For Work Installed: Net cash on completion.

Bills not paid at maturity are subject to sight draft without further notice.

Orders received from parties unknown to us and not rated by Commercial agencies, will be shipped to our order, and sight draft with bill of lading attached forwarded to local bank for collection, unless satisfactory references are sent with order.

Respectfully,

**BOSTON METAL CEILING & MANUFACTURING CO.**
